SUMMARY

I am a Junior Developer with a degree in Computer Programming, aiming to build my career in software and technology. Throughout my education, internship, and personal projects, I have focused on Java, Python, algorithm design, and data structures. I have gained hands-on experience through projects such as the Student Management System, developed with Java Spring Boot, and several deep learning–based applications. By combining my analytical thinking, problem-solving ability, and strong communication skills gained from different professional roles, I strive to create value in software development projects.

TECHNİCAL SKİLLS

Programming Languages & Technologies: Java Programming, Java Spring Boot, Python Programming, SQL Queries, HTML, CSS

Database & Machine Learning: MySQL, Deep Learning Libraries (FaceNet, MTCNN), Data Structures

Development Tools: Eclipse IDE, Git, VS Code, Microsoft Office (Word, Excel, PowerPoint)

Personal Skills: Fast Learning and Problem Solving, Teamwork & Collaboration, Effective Communication

PROJECTS (GitHub)

For detailed information and code samples, please visit my GitHub profile:
https://github.com/barslhn

Student Management System (In Progress):
Developing a full-featured backend system using Java Spring Boot and MySQL. Responsible for data persistence, database architecture, and basic web interface (HTML) design.

Driver Recognition Automation:
Designed a deep learning–based system that identifies drivers in vehicles through live camera feeds or recorded videos from previous days. Delivered and integrated the system with **Transay**.
(Python, FaceNet, MTCNN, Deep Learning, Advanced Face Recognition Algorithms)

Excel Converter & Alarm Reporting Tool:
Developed a data processing and reporting tool for office use. The application allows users to upload files, filter data by time intervals, and download formatted Excel reports. Delivered to **Transay** and provided technical support for deployment.
(Python, Data Processing, Reporting)

EDUACTİON

2025-10 Computer Programming – Cappadocia University
2020-09 Technical Chemistry Lab – Kadırga Vocational and Technical Anatolian High School

EXPERİENCE

2025-08 – 2025-09   Intern – Transay Transport and Personnel Services Inc.
• Supported the software development team and contributed to small-scale internal projects.
• Worked on basic backend applications using Java and Python, improving my coding skills.
• Gained hands-on experience in algorithm design and data structures.
• Practiced database management and SQL query operations.
• Strengthened my teamwork, problem-solving, and project adaptation skills.

2023-11 – 2025-01   Receptionist – Sultanahmet Center View Apart Hotel
• Welcomed and assisted guests during check-in and check-out processes.
• Provided customer-oriented solutions using effective communication and problem-solving skills.

2022-11 – 2023-10   Organizer – Kaçkar Tourism
• Managed transportation tickets, car rentals, hotel accommodations, package tour sales, and overall event coordination.

2018-06 – 2019-10   Laboratory Technician – Funda Laboratory
• Performed required experiments, tests, and analyses requested by physicians and prepared detailed reports.

COURSES ve CERTİFİCATİONS

2025-08   Java 101 Training Certificate - Turkcell Geleceği Yazanlar
2025-07   CSS Training Certificate – BTK Akademi
2025-07   Microsoft Excel Basic Training Certificate – BTK Akademi
2024-05   Introduction to Algorithms and Data Structures Certificat – BTK Akademi
2024-11   Introduction to Cybersecurity – Cisco Networking Academy
2023-11   NDG Linux Essentials – Cisco Networking Academy
2023-11   NDG Linux Unhatched– Cisco Networking Academy
